

## 11/06/20 - Cage Card Updates and Reminder for Researchers

If you are terminating cages, please **drop off all old format used cage cards with barcode stickers to the deactivation drop boxes**. We are not yet charging per diem automatically with the new cards, but we do need to deactivate them in our system.

**All new cages, weaned or separated, need to use the new Activated strip format card.**

If you have a stack of old OLAC cage cards, please discard them.

Any request for cage cards will be printed on the new cage card stock.

You may submit new cage [card requests here](#).

Your feedback and patience as we transition to the new card stock is appreciated!

**Add Set Up Date, and remove “A” strip at BOTTOM to Activate**
